Shabari Naturals

The Brand

Shabari Naturals: A Fusion of Tribal Wisdom and Sustainable Living

Shabari Naturals embodies a unique blend of tribal wisdom and sustainable living, deeply rooted in indigenous culture and traditions. Drawing inspiration from Warli mythology, where goddesses like Dhartari, Kansari, and Gautari represent nature's fertility, seeds, and interconnectedness, the brand reflects the ancient reverence for nature. Shabari, a figure from the Ramayana, symbolizes quality, integrity, and care, ensuring only the best for Lord Rama. This spirit of meticulous attention is a guiding force for the brand.

Shabari Naturals, initiated by Shabari Adivasi Vitta Va Vikas Mahamandal under the Government of Maharashtra, brings the richness of rural India to urban consumers. The products are sourced directly from tribal regions, reflecting the authenticity and nutritive value of their origins. By purchasing from Shabari Naturals, customers contribute to tribal empowerment, supporting livelihoods while enjoying nature's pure bounty.

The Logo: Symbolism of Nature and Joy

The logo of Shabari Naturals carries profound meaning. It features four core elements: nature, sustainability, tribal identity, and the joy of giving. A hand extended in offering symbolizes the spirit of generosity, while a twig intertwines with this hand, representing the tribal life bound to the forest. A bird, mid-song, signifies the joy and vibrancy of life in harmony with nature. Encircled in greenery, the logo reflects the eternal connection between man and ecology, a balance that tribal cultures have maintained for millennia.
